## Rajendra Kamdar Chairman

Delhi World Public School Morbi, established in 2018, is one of the schools run under the aegis of Delhi World Foundation. Delhi World Public School Morbi is Co-Ed CBSE Affiliated Senior Secondary (10+2) English Medium One And Only Branded School Morbi

We have smart classrooms, smart computer labs, physics, chemistry, biology and language labs, maths Labs, basketball, volleyball, tennis, badminton courts and cricket, football ground, as well as indoor & outdoor sports facilities in the school premises.

Delhi World Public School Morbi represents the Indian cosmos. Pupils from all over India study in our school campus.

We have experienced & qualified teachers as per CBSE norms and according to NEP 2020.

Delhi World Public School Morbi is managed by Shri Kamadar Academy Trust. Our chairperson honourable Rajendra Kamdar sir is a renowned educationist. DWPS Morbi is a premier educational institution in Saurashtra Region, Gujarat. At Dwps Morbi, we believe in the "Each One Teach One" Policy.

## Milind Kaluskar Principal

Education is a passport to the bright future because tomorrow belongs to those who prepare for it today. This quintessential attribute of leading the world successfully is made viable by the team DWPS- Morbi. The DWPS imparts quality education in a prudent way for streaming future employability of stakeholders.

Career pathways and livelihoods are built on foundations laid out in education. Education allows us to expand knowledge, explore new skills, explore ourselves, exercise brain muscle and grow. Without education we would stagnate. It is a human right. Too easily, education can be taken for granted, even squandered, but for many it is an elusive luxury. A myriad of factors can create barriers to access a decent education and prevent people from reaching their true potential. This is a global crisis requiring pragmatic solutions. To keep the world turning access to education must be universally improved.

I feel blessed to have had the opportunities in my education. It wasn't handed to me on a plate, though. I was inquisitive. I studied hard. My thirst for knowledge made me explore options and drive my curriculum. And I am still learning. Education is not finite.

Those of us privileged to have had the security and grounding of a good education, and access to furthering and expanding our horizons, have a duty to support those less fortunate. We can all do our bit to reach out and collectively elevate standards and access to education across the world.

Education should not be confined to education establishments. We all have a part to play in sharing knowledge, nurturing talent and supporting people in reaching their potential.

We are both tutors and students in the class of life. Hence, education, communication skill, and knowledge are login credentials for the bright future.

World Class Infrastructure at DWPS MORBI offers an advanced platform for understanding Chemistry along with Physics and Mathematics. The student will be able to access Physics, Chemistry and Maths laboratories and do the experiments for strengthening learning. DWPS labs are fully equipped to conduct all the experiments pertaining to organic, physical and inorganic chemistry.

Library at DWPS – Morbi stands out to be unique with being only one with its spherical shape. DWPS students get an opportunity to access the most renowned books and reference books and expand their spectrum of knowledge. Library is breaming with more than 3500 books on variety of subjects.

NEP 2020 is focussing on skill-based education instead of traditional memory testing assessment. So, the students of DWPS MORBI are getting an exposure to CODING-ROBOTICS- SENSOR BASED projects and learning. This facility will make students & school ready for NEP.

Awaz Room at Delhi World Public School Morbi is developed specifically for imparting skills like conducting interviews, art of raising questions and making announcement. It is a value addition to the students.

Education Trip - Nadabet Indo-Pak Border

I am not only happy but very proud to be a part of the Delhi World Public School family. For the last 4 years, this family has continuously tried to give children their golden development and we have been successful in this. I am very happy that we are in the top of Morbi city not only in academics but we also done well in sports. Our team has also won the Bhopal Premier League Junior title which is recently held at Madhya Pradesh. This shows that DWPS is not only for children Keeps it limited to studies, but if there is any path of development of their interest anywhere in their city, state and nation, it reaches there.

We operate such a system in our school that children are confident in themselves and stay motivated. This is not only the branded school in the city, but because of having a different identity, we stand out in the crowd of schools in this city. Children are not only allowed to work in their favourite field, but from time to time they are also motivated by being rewarded with prizes and appreciation.

In this sequence, the guidance of our respected Principal sir is incomparable. Under the leadership of our sir, not only our students but also the teachers keep themselves updated from time to time.

Our teachers adopt all the information and modern teaching methods through the training and various seminars that are held from time to time, so that the children can be enlightened. Golden development can be done, I am very grateful to become the author of the first book of my life titled "**Importance of Physical Education and Well Being**" under the guidance of respected Principal Sir.

**- S. Ali Khan**  
(PGT & HoD Sports)

"The Secret of happiness is not in doing what one likes but in liking what one does"

It's an honor & a prestige to be the Head girl of DWPS & It's even greater to have my words in this Annual Booklet of year 2022-23. I really appreciate our Principal Sir along with the other teachers for giving me this opportunity to present my opinion & Also implement my learning in the school.

The human psyche should be very much built with the basics first. Just as one gets supports before building a home, children also require these supports in the form of education & basics of Intellectual/ascholastic as well as extra curricular activities & that is exactly what the DWPS family wants to provide to all of their students. It's really a matter of pride & joy for an individual to possess an immense knowledge but every genius comes from an ordinary person who later becomes a great & makes himself original from that ordinary. DWPS has inspired me to be this by surrounding me with these original personalities in the form of teachers. Whether it is their own clearing exams on the side, writing books & much more. They do it like an original person which has inspired me. DWPS is a center for this kind of victory in life.

To elaborate about the school, it has grades 1 to 10 along with 11<sup>th</sup> \* 12<sup>th</sup> Science/ commerce. In addition to this DWPS also manages preschool called 'HAPPY ANGELS' for the best educational & learning experience for students. Our school is definitely up there in terms of academics but there's also upbringing for extra curricular activities too. This is through the house system of houses named Aravali, Shivalik, Nilgiri & Kailash. This House system really help to bring out the creativity & excitement of the students which help them learn while having fun. Each of the Houses is very strong & have a competitive nature which assists students to become great leaders & to also know about team work.

At last I would just say that DWPS will bring a new person out of the students which will be even greater of an impact than education itself. This is not only because of the mindsets it is because of the people behind their mind. Whether it is Principal Sir, subject Teachers or my dearest class teacher, Ali sir. They consider their little things to make us a person & above all a good person. They all have supported us like their own & that makes us feel like a part of this family. The DWPS Family.

**- Prachi Kavar**  
(Head Girl DWPS Morbi)

**"Learning takes place if the willingness to learn more, inspires us every moment".**

The word education, weaves a simple picture in our minds of a student learning and a teacher teaching, but education is beyond this classical perspective. Students are future nation builders: thus. It is our duty to develop and empower them to face challenges awaiting them in the real world with responsibility, innovation and collaboration.

I always try to bring out the best in our students and help them not only to succeed in their studies but also to nurture the moral values that build strong confidence and character. We need to equip our students with leadership, critical thinking, communication and technical skills, the requisites of 21st Century.

Education is a way to enlightenment. It is a way to success, success not only in terms of becoming rich having luxury and comfort but also in terms of living a healthy lifestyle. It not only helps to provide knowledge but also develops a logical attitude and plays a major role in the development of an individual, as well as the country. Education improves our cognitive health and thus enhances our ability to think and implement it in various situations.

I believe that education is a lifelong exercise that can be unbelievably exciting if only, being the part of DWPS Morbi. I would like to say, we create a passionate schooling experience recognized for its warmth, energy and excellence as it's rightly said, 'Only a potter knows how well each grain of his clay will blend and knows which strokes to place on the wet clay to transform it into a vessel worth using.'

With this, I conclude, that education indeed allows us to grasp available opportunities better that eventually leads towards a harmonious society.

My best wishes to all readers!!!

Thank you.

(PGT & Science Incharge)

"It takes a big heart to shape little minds." At Little Angel Pre-Primary school, Morbi, the focus is on providing an all-round development of the child. Every child is given a platform that fosters academic, social, emotional and co-curricular learning.

For a parent, the start of their child's pre-school is a milestone that is often anticipated with great excitement and joy. The selection of a good pre-school is important to smoothen out the transition from a home environment to a new environment.

The staff members here are committed to create a loving and caring atmosphere for the kids, away from home. We provide the skill building education to our kids. Happy Angel Kids become efficient & holistically developed child ready for taking up future challenges.
